

Students win a Hackathon “HACKSPIRE” at Adani University

The ASPDC Committee of Adani, Ahmedabad organized HACKSPIRE.

The theme of the hackathon was to find innovative solutions using AI applications in the fields of education, mental wellness, and queue management systems.

In this hackathon, Avani Prajapati, Aman Galoliya, Ayush Pathak, and Drashti Mistry — students from L.D. College — won First Prize by presenting an AI-based solution in the field of education, with 50,000 Rupees of Prize Money.

They developed an AI-powered learning companion software, which is not just a website, but a personalized and adaptive learning platform designed for every student. This software dynamically adjusts to each student's learning speed and style, making the learning experience truly individualized.

Another team, Hack Hustlers - From Sem 6 IT Ronak Sharma, Shubham Bera, Dhaval Rathod, Divy Shah secured the 2nd Runner-up position and a cash prize of ₹20,000 Rupees.
