

Report on MSP SUMMIT 2017

MSP Summit 2017 was held on 28th-30th September, 2017 at Bits Pilani, Rajasthan. MSP stands for Microsoft Student Partner which is world's well known program to explore the technology. As Microsoft selected MSP's from various educational institutes across India. Result of this I got the opportunity to represent L.D. College of Engineering at this wonderful platform as a MSP. There were total 15 active MSP's taken parts in this summit from different different region of Gujarat including 6 from Ahmedabad.

In this summit across the nation 300+ talented students taken parts and represent their respective region and institutes. I went from Ahmedabad airport to Delhi airport through flight and then from Delhi airport to Bits pilani through Bus which was arranged by bits at cost of 500 Rupees and taken same route for the returning to Ahmedabad. Summit was started at 6:00 pm on 28th September with inauguration of the event in seminar hall and which was continued with start up and entrepreneur session and ends at 9:00pm. Then after there were fun event at 10:45 pm in which different different regions were showing their cultural dance and special talent in which we played Garba there.

The next day 29th September started with exploration of new technology of Microsoft on that we learn about Microsoft Office, SMS Organizer, LinkedIn updates, Augmented Reality and same day ends with fun event at night.

Last day was started with session on holo lenses and Unity platform in the morning. Then after lunch, there were session on Machine Learning and then after Hackathon in Machine Learning. And lastly summit was ended with ending ceremony in the evening. At the night of last day an EDM night was also arranged for entertainment of MSP's. And then next day early in morning we came back from bits pilani.

In this summit in between there were many quizzes were arranged in which I won 3 times and Microsoft gave me the goodies. In short, I got lots of experience, knowledge, connection, meted with other great minds of India. I aware to know about many world class technologies which will help to conduct session on this at our campus as MSP to empower the students in new technologies. I am fortunate to be part of this great community from our college.

Your Sincerely

Roshan Rawal
