

# One day workshop on “LATEX for Engineers”

(Sophisticated professional typesetting for business and academic publishing)

(Date : 16.09.2017, 10.30 AM)

(Venue: Chanakya Hall, Electrical Engg. Department, L D college of Engineering)

Organized by: Electrical Engineering Department

This Software is useful for creating posters or magazines or any other form of document for publication, a manual for your customers, an article for a journal, a book for a publisher, or a newsletter for your club or society.

LATEX runs on any computer and produces timely, accurate, publication-quality output on desktop printers and commercial typesetters. It's completely free, and has been the tried and tested solution for over 20 years. LATEX is in use by leading publishers, documentation specialists, and technical and academic users worldwide.

It is more powerful than a word processor or desktop publishing system, LATEX has a congregation of unique features which can dramatically cut time and cost from any publishing project. Powerful automation features handle cross-references, bibliographic citations, tables of contents, and indexes with ease. Available on all platforms from the smallest PC or Mac to the biggest workstation, mainframe, or supercomputer.

This one day workshop will help PG students and faculty members in thesis preparation. All participants are requested to register on following link and pay registration fees of Rs. 50/- to Mitesh Patel (95588 58885) (PG Student, Electrical Department). For more detail please Email: [ulmakwana@ldce.ac.in](mailto:ulmakwana@ldce.ac.in).
