

A Report on IMP talk

“Bullet Trains or Better Trains”

29th August 2018

L D College of Engineering, Ahmedabad

National Institute of Mass Communication and Journalism (NIMCJ) organizes Independent Mass Power (IMP) talks in different institutes on different topics pertaining to common man. It is a very popular platform that they have created for creative discussions which has organized 38 such discussions all over Ahmedabad in various institutes, and on varied topics pertaining to common man. Col. Ravinder Singh, student of NIMCJ, approached us this month to organize 39th talk at LDCE on 29th August 2018. The topic is “Bullet trains or Better Trains?”

With the finalization of topic, the student panelists from the institute were chosen. Ms. Garima Lodha from BE (Final Year) Civil and Ms. Sayanti Mukherjee BE (Final Year) Biomedical participated and represented the institute in the talk. Before the talk graphics of the panelists as well as subject expert were prepared by NIMCJ and were put on social media as per the regular practice of the IMP format. Prof. Dharmesh Patel, Asst. Professor, English was the subject expert for the talk.

With a lot of preparation from both the sides the talk was conducted on 29th August 2018, and was telecasted live on Facebook. The talk began with a brief introduction of NIMCJ and IMP talks. Dr. G P Vadodariya, Principal, L D College of Engineering, graced the event. Also

faculties from various departments were present. Students of First year B.E took active interest and were present in large number. With all the four panelists and the subject expert the talk inaugurated and was ably handled by the anchor Nirja Jhala(NIMCJ). The discussion was interesting and thought provoking with some very valuable inputs from the participants as well as audience. The one hour session ended at 12 noon and was followed by a small session of felicitation and group photos.
