

INNOVATOR CLUB

L.D COLLEGE OF ENGINEERING

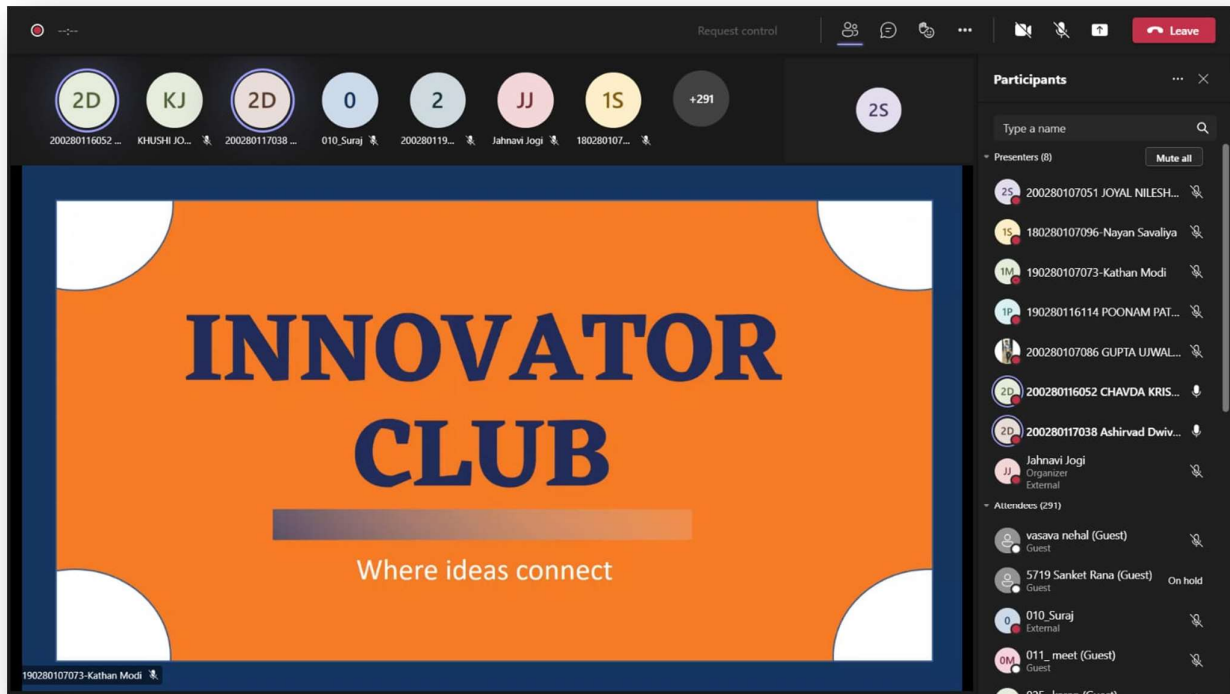

ORIENTATION 2021

With the inception of the new scholastic year, the innovator club has organized an orientation of 2k21. The orientation was organized to welcome all the curious minds of the first-year students. The orientation of the innovator club was organized on **9th October 2021**.

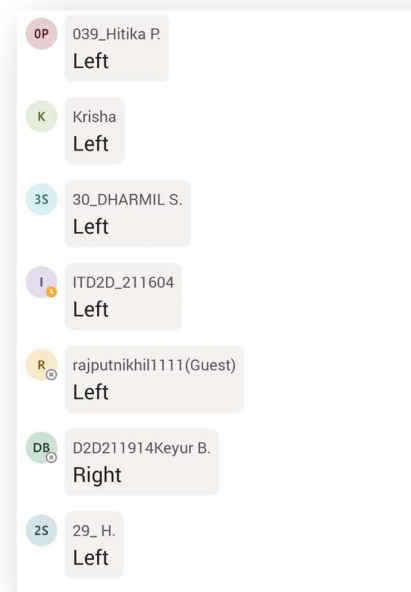

Krishna Chavda And **Ashirwad Dwivedi** gave information about the innovator club in a distinct way. **350+** students joined the orientation.

In the beginning of orientation **Harsh Patel** was invited for recitation. The anchors got an amazing response from attendees. all the students were so excited about the activities of the orientation. They explained the difference between **innovation** and **creativity**, Innovator is someone who looks for new ideas and implements them, and Creativity is defined as the tendency to generate or recognize ideas. They encouraged all the participants to come ahead and share their ideas. Anchors gave information to students about the different past events which were organized by the innovator club. Then, they introduced the **president** of the innovator club **Nayan Savaliya** and the **chairperson Jahnavi Jogi** and other team members.

After that **Joyal Shah** and **Ujwal Gupta** conducted some fun activities. In those activities student had to distinguish right logo from the two options. And then club members asked students different questions and they had to give innovative answers.

Roshan Rawal who is founder of club was invited as a guest. He is **CEO at Immersive Solution PVT LTD** and also alumni of LDCE. He told us how he got the thought of innovator club and gave provoking speech around 10 minutes which increased our level of enthusiasm. And after that president of the innovator club **Nayan Savaliya** solved queries of the students.

The purpose of Orientation was to awaken students about the **importance and need for innovative ideas** and get familiar everyone with the innovator club and introduce with the activities of this club. And the session was very interactive because of the fun filled activities So, this session was all about the activities and opportunities which the Innovator club provides. and how they will provide amazing opportunities in the future. The club mainly focuses in raising new questions, new possibilities, to regard old problems from a new angle with innovative thinking. Students learned to think outside of the box and really enjoyed.
