

List of Webinars arranged by Plastic Technology Department (April 2020 to May 2021)

Sr. No.	Date	Title of Webinar
1	9/5/2020	Hollow Manufacturing
2	12/5/2020	Essence of Six Sigma
3	14/5/2020	Basics of drying in processing
4	14/5/2020	Basics of Blending in plastic processing
5	19/5/2020	Color and additive masterbatch
6	21/5/2020	Plasticating screws
7	23/5/2020	Nanopolymers
8	27/6/2020	Servo Robots in Plastic Technology
9	09/07/2020	Basics of Compact Chillers and MTC & its applications in Plastic Technology
10	15/07/2020	Basics & Applications of Dehumidifier Air Dryer
11	29/07/2020	Conveyer Belt system in Plastic processing automation
12	11/08/2020	Basics & Applications of Blenders in Plastic Processing Advanced Technology
13	24/08/2020	Basics of Granulator in Plastic Applications

14	15/09/2020	Basics of pneumatic conveying systems and its application in Plastic processing
15	15/09/2020	Basics of pneumatic conveying systems and its application in Plastic processing
16	26/09/2020	Basics of Silo & Silo feeding system & applications in Polymer materials
17	10/10/2020	Compounding line & its Automation
18	24/10/2020	PVC pipes processing & Mixing Technology
19	08/05/2021	“Applied IELTS” by Dr. Prabha Soni
