

REPORT ON ORIENTATION PROGRAM 2021

28TH September, 2021

**ORGANIZED BY
INSTRUMENTATION AND CONTROL
ENGINEERING DEPARTMENT,
L.D. COLLEGE OF ENGINEERING, AHMEDABAD**

Orientation Program IC Engg. 2021

As the corona pandemic was ongoing and considering the Covid-19 guidelines this time the Orientation Program 2021 was arranged online for welcoming the batch of 2021 in the Undergraduate Program of the Department of Instrumentation and Control Engineering. The whole program was arranged on the **Microsoft Teams** platform. The program started with a warm welcome speech and greeting message for the Freshers, Followed by the prayer. Then our respected principal, **Dr. R.K. Gajjar** welcomed the students and shared the history of L.D College of Engineering along with that mam give a brief idea about the various ongoing activities and achievements of college through a video message. The head of the department **Dr. Manish Thakker** welcomed the students, addressing them with a motivational speech. Sir advised the students to be dedicated, committed, and focused on academics, along with that sir gave a great message that to learn something new each day. **Prof. Vinod Patel** had given a detail about Training & Placements of LDCE and had also shared some glimpse of placements in IC department. **Dr. Dipesh Makavana** had given a brief idea about the sectors in which Instrumentation and Control Engineering is useful and the future possibilities after being IC Engineer. As an alumni, **Mr. Jagir Patel** from Prima Automation welcomed all the freshers and gave an idea about the Industrial 4.0 and the possibilities of How IC engineers playing an Important role in it.

The student anchor, Tapan Chavada(7th sem) gave a heart-warming welcome to freshers and faculties Anjali Jha(3rd sem) gave a prayer then Herak Dharsandia(5th sem) and Vipul Kamothi(5th sem) gave introduction about our college through the presentation and last Jayshil Gohel(5th sem) and Khyati Panchal(5th sem) briefed the freshers with the department and their subjects through the presentation.

In the college presentation, they explained about history, rules and regulation, various clubs, facilities in the college, committees, and achievements of the college. In the department presentation, they gave a brief idea about Instrumentation and Control Engineering followed by the Introduction of the faculties, facilities of various laboratories in the department, various departmental activities, and achievements. And they also saw them College tour video and Departmental tour video.

Before moving towards the ending note there was a Felicitation Ceremony where the students with their great achievements in their respected category were felicitated with the certificate. Category were such as

- International level achievement
- National level achievements
- Top 3 ranker from all the 4 years

The session ended with a departmental video followed by a Q & A session.

Overall feedback of the orientation was very good. The students get to know about the college and also their department and they really enjoyed the orientation.
