

L. D. College of Engineering, Ahmedabad  
Department of Electrical Engineering  
Teacher's Day Celebration

Date : 06.09.2021

*The greatest sign of success for a teacher is to be able to say, "The children are now working as if I do not exist." - Maria Montessori*

On the occasion of Teacher's Day, Electrical Department thought of reversing roles. So we sat on the benches as students and we got a glimpse of our students working as teachers and ...doing a marvellous job.

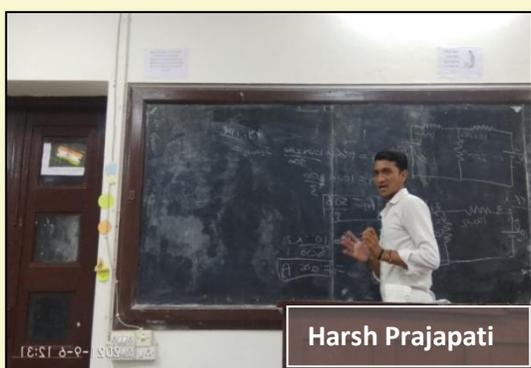

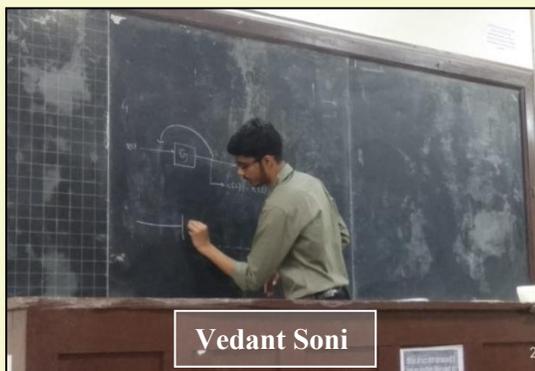

The day began with an address by Dr Jyoti Iyer who encouraged the students to do their best in academics and enjoy college life to the fullest at the same time.

Dr M C Chudasama, Head of the Department also spent some time with the students and advised them to bring out their talents and capabilities through participating in such events which will not only hone their skills but also give them lovely memories to cherish in posterity.

The senior students have experienced college life with its full gusto as they were able to attend college before the start of the pandemic. The third semester students however, had a very narrow window during which they were allowed to attend college offline which was cut short due to the second wave. Now is the first time they are getting a feel of college as their offline classes have begun. This was perhaps the very first offline activity that they could participate in. The program coordinators showed great enthusiasm and conducted the entire event very smoothly.

Our students conducted lectures on various topics like Block diagram reduction, Basics of Circuit Analysis, Probability, Digital Electronics, Network Theorems, they even presented a poem as an ode to Teachers. All the faculty members turned up to show their support and to motivate the students.

Prof. Nupur Sinha gave information about other activities of department like department magazine - ELECTRICT and KAIZEN in which students participate with zeal and vigour.

The entire program was conducted with the guidance and support of Dr. U. L. Makwana who motivated the students to put their best foot forward.

Students are motivated for participation in such activities as it breaks the mundane routine of classes, fosters friendship and team spirit and also gives them a basic understanding and insight into program management, team building, communication and coordination skills which will help them in their professional as well as personal life.

We concluded the program by distributing mementos to the students on behalf of the faculty and staff as a token of our appreciation.

Student Team:

Sr. No.	Name	Sem	Activity
1	Vedant Soni	III	Taken Lecture on Control System
2	Manaswini Joshi	III	Taken Lecture on Electrical Circuit Analysis
3	Rohan Prajapati	III	Taken Lecture on Probability
4	Om Mitra	III	Taken Lecture on Analog and Digital Electronics
5	Harsh Prajapati	III	Taken Lecture on Electrical Circuit Analysis
6	Jatin Khankhal	III	Poem about teacher's day
7	Swayam Modi	III	Program Coordinators
8	Abhay Gosai	III	Program Coordinators
9	Zeel Sapariya	III	Program Coordinators
10	Karam Patel	III	Program Coordinators
11	Sahil Prajapati	III	Program Coordinators
12	Jeemit Prajapati	III	Program Coordinators
