Organised By:

Supported By:

New Developments in Natural Rubber;

Breaking Boundaries:
Game Changing Initiatives.

Registration & Info: www.rubbercon2022.com

Enquiries: admin@rubbercon2022.com

List of Tracks & Topics

► Rubber Science & Technology

- Rubber Biotechnology & Upstream
- Materials Science for Rubber Application
- New Polymer Synthesis
- Novelty in Rubber

► Environmental & Sustainability

- Sustainability
- Environmental Management
- Safety & Health

Proposed Journal publication info:

Only selected papers to be published in *The Malaysian Journal of Chemistry (MJChem)* (SCOPUS-indexed) & *Journal of Rubber Research (JRR by Springer)* (ISI-indexed)

► Rubber Manufacturing & Engineering

- Modern Rubber Processing Technology
- Rubber Applications
- Rubber Products
- Rubber Engineering

► Rubber Techno-Economic & Marketing

- Rubber Techno-economics
- Rubber Marketing and Pricing

Keynote Speakers

Dr. Banja Junhasavasdikul

Innovation Group

New Frontier and Sustainable Growth of Natural Rubber as a Green Polymer through Good Agricultural Practice and Good Manufacturing Practice

Prof. Anil K. Bhowmick

University of Houston

Recent Advances in Natural Rubber Compounds

Prof. Changwoon Nah

Jeonbuk National University

Elastomer based smart material for energy harvesting, sensing and shielding applications

Dr. Elham Fini

Arizona State University

Microbially Desulfurized of Tire Rubber For Use in Construction
