

IC Engineering Department L. D. College of Engineering B. E. First Year Orientation 2023

An orientation program was organized for the first year students of L. D. College of Engineering – Instrumentation and Control Department. The objective of the orientation program was to provide new students with the necessary information and resources to integrate smoothly into the institution. The program aimed to build a sense of belonging, a bridge between faculties and students, and facilitate positive bond amongst them.

The orientation was divided into multiple sessions, spanned over a time of about 5 hours. The students were addressed by the honorable Head of Department, Dr. Manish Thakker, who welcomed the new faces and briefed them regarding institution and department. Next, the students were provided with the brief information of LDCE: rules and regulations, clubs, major events, laboratories and workshops, etc.

Then the students were informed about the Instrumentation and Control Department. They were given all details regarding their curriculum, activities, events, laboratories, and clubs. They were also introduced to the faculty members. The opportunities available for students to participate in research and collaboration were also informed.

The programme ended by felicitating the existing students who excelled in academic or co- curricular activities by providing momentous and certificates. Lastbut not the least; students were taken for a college tour so that they become familiar to the institution.

The orientation program was an effective tool for welcoming new students and helping them acclimate to the institution. It provided essential information, fostered positive relationships, and promoted a sense of belonging.
