

Report of Expert Lecture on "Engineering Work Process"

Date: 3rd February 2025

Title of Lecture: Engineering Work Process

Guest Speaker: Milan Joshi, UOP Gurgaon

On 3rd February 2025, an expert lecture on "Engineering Work Process" was delivered by Milan Joshi, a professional from UOP Gurgaon, at the Chemical Engineering Department of L.D. College of Engineering. The lecture, aimed at 6th semester students, provided insights into the various stages of the engineering project lifecycle, emphasizing the role of chemical engineers in designing, implementing, and optimizing industrial processes. Milan Joshi shared valuable industry experiences, covering topics such as project management, problem-solving, and the importance of teamwork and continuous learning in the engineering profession. His presentation helped students understand the practical applications of their academic knowledge and the challenges faced by engineers in the field.

The event was coordinated by Dr. Hiral Pandya and Prof. Nikita Ambegaonkar and was attended by around 50 students. The lecture proved to be an enriching experience, giving students a clearer picture of their future roles as chemical engineers in the industry. Milan Joshi's insights inspired the students to think critically about their careers and the skills required to succeed in the professional world, strengthening the connection between academia and industry.
