About Ahmedabad City

Ahmedabad is a historical city of Gujarat which truly represents the composite culture of the state. Earlier Ahmedabad used to be the state capital. The capital city of Gandhinagar was later developed as a satellite township of this mega city. Ahmedabad is a hub of education and business. People therefore come here from different parts of the state. It harbours many worth seeing places of historical and archeological importance. The average maximum temperature in the second fortnight of December ranges between 30 to 29 degree centigrade and the minimum temperature ranges from 15 to 14 degree centigrade. The conference venue is about 12 kilometers from Sardar Patel air port and about 8 kilometers from the Kalupur railway station.

About GTU

The primary objective of the Gujarat Technological University is to develop the knowledge of science, engineering and technology. The GTU has won "ICT enabled university of the year award in E-India-2009 and "Manthan award South Asia 2009" for its project "common entrance test, GCET- 2009". The university is established vide state act (20/2007).

About Indian Society of Hydraulics

The Indian Society of Hydraulics is a nonprofit making organization established in the year 1992. It gives a platform to professionals in the field of water resources engineering to share their ideas. Awards are given to outstanding professionals and researchers every year. The head office of the ISH is located at Central Water and Power Research Station, Pune. The ISH has been instrumental in bringing the water resources professionals under one umbrella. The conference is being organized under the aegis of The Indian Society of Hydraulics.

About L. D. College of Engineering

The institute established in the year 1948 is situated adjacent to the Gujarat University and is at the nucleus of various institutes of national importance such as Indian Institute of management, The Physical Research Laboratory, Center for Environmental Planning and Technology and Ahmedabad Textile Industry Research Association. The 55 acres of land on which L. D. Engineering College sits today was donated by Sri Lal Bhai Dalpat Bhai the textile magnate. The institute earlier with Gujarat University is now affiliated with Gujarat Technological University. There are 14 graduate courses and 17 post graduate courses run by the institute. The water resources management centre was established in the year 1983 with the help of ministry of human resources development government of India. It has been training manpower from industry, government organizations, academic institutes, other private institutes and young students. The centre has also been taking industry sponsored research and consultancy projects.

About The Conference

The conference intends to provide a platform to water resources professionals, academicians, and young researches to discuss and share their ideas. The outstanding professionals and researchers are awarded at the conference every year :

ISH Life Time achievement award

Jal Vigyan Puraskar (Best Paper in ISH Journal)

G. M. Natwathe Awards (Best Paper in Hydro Conference)

S. N. Gupta Memorial Lecture

R. J. Garde Research Award

ISH Best PhD Thesis Award

ISH Best M. Tech Thesis Award

The aim of the conference is to catalyze research and academic work in water resources engineering field and interdisciplinary areas. Selected papers will be published in the journal of The Indian Society of Hydraulics. Key note speakers will be invited from well known Universities of India and from abroad.

Details of paper Submission

The paper should be of maximum ten pages in word format. The guide lines for the paper to be submitted will be available at the web site URL www.hydro2017.org.

Themes

- ❖ Water Resources ❖ Surface Hydrology and Water Shed Management ❖ River Engineering and Fluvial Hydraulics
- ❖ Hydro Informatics ❖ Hydraulics ❖ Ground Water Hydrology
- ❖ Coastal Engineering ❖ Climate Changes
- ❖ Draught Modeling and Draught Management
