

Report- Career Counseling Session

Date- 25-7-2018

Career launcher had arranged a career counseling session for pre final and final year students of the chemical engineering students on 25th July 2018. In this session students were asked to write about their career plans. Students were asked many questions about themselves. Based on the results, students were counseled.

Students came to know about themselves after this session and what they really want and which kind of job opportunity suit them, how they can prepare themselves for future endeavors etc were the major outcomes of the session. Few common advises were given to student so that can wisely choose their career in their field and of expertise and they can improve themselves where they were lacking.
