

Expert Lecture- Report

Entrepreneurship as a career option for engineering students

An expert lecture on “Entrepreneurship as a career option for engineering students” was arranged by the chemical engineering department on 21-7-2018 for all the students of the branch. Expert speaker was the founder of G Auto- Mr Nirmal Kumar. He encouraged students by narrating his own story of establishing the “G-Auto”

Mr Nirav Kumar talked about the basic skills needed to become an entrepreneur and how students can build these qualities during their college life. He also asked students to initiate the survey and research in the field they want to start as an entrepreneur. He also put stress on new and innovative ideas. He talked about many “success and failure” stories and one of the major factor for business “Risk taking behavior”.

He also cited few examples of engineers who turned out to be very successful entrepreneurs. This encouraged students to become entrepreneurs. Lastly he satisfied all the queries raise by the students. By his lecture, Mr Nirav Kumar opened a new career option for all the students.
