

## Expert Lecture on

# “Recent advances in safety and hazards management in chemical engineering field and industries”

Date- 17<sup>th</sup> February 2018

Expert lecture titled “Recent advances in safety and hazards management in chemical engineering field and industries” was organized by the chemical engineering department on 17-02-2018 for the students of the department. Mr M N Vyas, Ex officio of IPCL, delivered the lecture. Major audience was the students of the 6<sup>th</sup> semester as the content was a part of their subject –Pollution control health management.

Mr Vyas explained about the safety and its importance in any industry. He also discussed about the various measures of safety, accidents and its prevention, industrial hazards etc. He talked about the recent advances in safety and how these techniques can help to prevent accidents. He also shared his profound knowledge gained through experience and shared few real life incidents with the students to make them aware about the actual industrial scenario.
