

## Report on “Personality development for campus placement”

On 19<sup>th</sup> July 2018, expert lecture titled “Personality development for campus placement” was arranged by the chemical engineering department for pre final year students. Main motive of the lecture was to build the corporate values amongst the students by developing their personality. Mr Sachin Sehgal was the key note speaker for the same. He talked about the role of personality while appearing for the interviews.

Development of positive attitude and positive change is personality development according to Mr Sehgal. He encouraged students to utilize the college and campus life for developing few skills which can benefit them during their placements. Confidence, body language, team work, time management, self motivation, leading quality etc were the sub topics of the lecture. He elaborated all these points and discussed about the ways to develop such qualities in the students.
