

**APPLIED MECHANICS DEPARTMENT & INDIAN GEOTECHNICAL
SOCIETY (IGS) AHMEDABAD CHAPTER**

JOINTLY ORGANIZES

EXPERT TALK BY

**Er.MIHIR VORA (Director, KBM Engineering Research Laboratory,
Ahmedabad)**

ON

**'DEFECIENCES AND CURRENT PRACTICES FOLLOWED IN BORE
LOG INVESTIGATION AND SOME INSIGHTS ON GEOTECHNICAL
FAILURES'**

As a part of series of lectures/expert talks/seminars/ workshops planned for year 2018 by IGS Ahmedabad chapter and Applied Mechanics Department, L.D. College of Engg, Ahmedabad jointly organized expert talk on topic "DEFECIENCES AND CURRENT PRACTICES FOLLOWED IN BORE LOG INVESTIGATION AND SOME INSIGHTS ON GEOTECHNICAL FAILURES " by renowned Ahmedabad based consultant Er.MIHIR VORA.

Expert talk was attended by more than 95 participants from various sectors which include academic institutions, geotechnical and structural consultants, government engineers, research organizations and both UG & PG students.

Er.Mihit Vora delivered a excellent presentation and he directly emphasized on various key issues related to bore log investigation and associated problems faced by both design engineers and contractors.

He also gave current examples of bore log report and their mis-interpretations done during analysis. He also displayed 4 case studies relating various geotechnical parameters with geotechnical failures and what remedial measures or precautions should be taken to avoid such failures.

Overall it was really a fruitful session full of knowledge and all the participants demanded to organize such expert talks regularly for the benefit of the society. Lastly a good question-answer session was observed between speaker and participants on various geotechnical issues.

As a part of token and love, memento was given to Er.Mihir Vora by Prof.A.R. Gandhi, Head of Applied Mechanics Department, LDCE.
