

## **TREE PLANTATION EVENT**

**Venue: Chemical Engineering Department.**

**Date: 1st August, 2018.**

A tree plantation event was organized by the first year students of Chemical department on 01/08/2018. The event was sponsored by Ultratech Cement Limited. High level officials of Ultratech cement along with students and faculties of Chemical department planted more than 100 saplings in the campus. The industry officials encouraged the students to take up such social and environmental events. The industry assured of their support on conducting such events. Dr. G. P. Vadodaria, Principal, LDCE attended the event and encouraged the students. The students took pledge under his patronage that they will take care of the saplings till they grow up. The students created their own groups and each group was assigned saplings which they have to water, nurture and take care till the plantation can be self sustained. Prof. Sachin Parikh thanked the industry official for sponsoring such a noble cause. The event was attended by all the faculty members of Chemical department and Prof. B. H. Shah.
