

L. D. College of Engineering
Internal hackathon for SIH - 2023

Date:22/09/2023

L.D. College of Engineering, Ahmedabad had organized an institute level internal hackathon to shortlist the teams to be registered for Smart India Hackathon-2023 on 22/09/2023 at Annexe building of the institute.

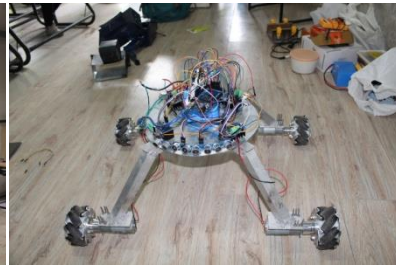

Total 105 teams (606 students, 436 male and 170 female) of students have participated in this event. As per the guidelines of Smart India Hackathon – 2023, and to encourage female participation in innovative projects, each team consists of at least one female student as member. The participants of the institute have worked on 78 different problems put forward by various ministries of Government of India as well as problems from various PSUs. Out of them, 54 software problems and 24 problems of hardware categories were chosen by the participants to work upon. To evaluate and shortlist the teams, 11 judges having industrial/academic experience in various fields were invited.

The registration process was started at 10:00 AM on September 22, 2023 at Annexe building. Total 106 teams with 606 students reported for the event.

After registration, students were allocated appropriate space with necessary logistic support to work on the problem. The necessary resources were provided by institute to respective teams and subsequently students started their project setup accordingly. From around 10:30 AM to 1:00 PM, participants worked on the solving the defined problems and made themselves ready for presentation and demonstration.

From 1:00 pm to 1:30 PM, lunch break for participants was arranged with delightful food. The participants enjoyed the food.

After lunch, the jury members visited all the participating teams for evaluation purpose. Total 11 juries were invited and they evaluated the teams based on following uniform criteria:

1. Clarity and details in the prescribed format(Problem Understanding)
2. Novelty of the idea
3. Complexity
4. Feasibility
5. Sustainability
